

It's Just Time

© Copyright Greg Philby

Original work.

Lyrics, chords and melody recorded Dec. 30, 2021.

Released 2025.

V1

The flower grows where it is planted.
Every bird must learn to fly.
Some days come with sun and some days
fall with rain.

Ain't no point in askin' why.
The river doesn't know the answers
as it moves around the bend.
It keeps on flowin' cuz it's not just where
you are,
it's also where you end.

CHORUS

It's just time for peace with one another.
It's just time for trust.
It's just time to reach out for your brother.
It's just time for love.

V2

People fence out all the differences.
Clutch their fears and bang their drums.
Just step outside yourself, and see
when the sun comes out
how it shines on everyone.

CHORUS

It's just time for peace with one another.
It's just time for trust.
It's just time to reach out for your brother.
It's just time for love.

BRIDGE

So let us blossom with our colors.
Branch together like the trees.
Let our kindness flow and take us 'round
the bend
and see what we achieve.

CHORUS

It's just time for peace with one another.
It's just time for trust.
It's just time to reach out for your brother.
It's just time for love.
It's just time for love.

OUTRO

The flower grows where it is planted...
