V1

My old truck
My own luck
We're rollin' down this open road.
My old friend
My own end
We're goin' down this open road.
We're headin' for a better place.
Don't know where it's at.
We're leavin' for a reason
and we ain't lookin' back.
I'd stay and try but you know why
there ain't no sense in that.

V2

My old truck
My own luck
We're rollin' down this open road.
My old friend
My own end
We're goin' down this open road.
We're drivin' way from where we were
and where we mighta been.
Headin' for a better place.
Don't know what or when.
Gonna keep on goin'
till the stars come out again.
till the stars come out again.

CHORUS

We'll take our time.
We'll be fine.
We'll take our time.
Goin' down the road somewhere
we'll be fine hell we don't care
just me and my old truck.

OUTRO/VERSE

We're drivin' way from where we were
and where we mighta been.
Headin' for a better place.
Don't know what or when.
Gonna keep on goin'
till the stars come out again.
till the stars come out again.

We'll be fine.
We'll take our time.
