V1

Ain't life just a big ol' record player.
Same old tune goes round and round and round.
Fortune shines on certain golden windows
When I can't get my feet up off the ground.

A lot of souls out driftin' on the highways.
Holdin' on with duct tape on their cars.
Hopin' to just make it to Toledo.
Maybe someday get to find the stars.

CHORUS

After all....
It's just another fallen moon

V2

Woke up in the same old disposition
Pillow still indented from a dream
Got no silver spoon to eat my corn flakes
But I still got a face the mirror can see.

Maybe it'll be my turn tomorrow
Or maybe in another day or two
Take my heart and sail it off the island
Put it on a boat to Kathmandu

CHORUS

After all....
It's just another fallen moon...
After all....
It's just another fallen moon

INSTRUMENTAL

V3

Ain't it just the way so many days go
Broken strings and not a lotta luck
But aint that just the thing with fallen
moons
Every day they're climbin' right back up

BRIDGE

It's all gonna come my way real soon
One day real soon
It's all gonna come my way real soon
With just another moon
